

# Door Stop Service

## Recycling

Starting July 15 Door Stop Service will deliver a total of **6 recycling bins** to the waste rooms on property. Bins will be labeled loose paper, aluminum, and plastic. Residents are encouraged to leave recyclables outside of their doors next to waste baskets in clear plastic bags for recycling pickup that will run concurrently with trash pick-up. **2 large containers** will be set on property one in each waste room with a label for cardboard. Please encourage residents to break down all cardboard boxes to reduce quick fills. DSS will transport recyclables to 3 local recycling stations

No additional cost will be applied for the recycling service.
